Seminar Session Highlights

COMPLIANCE “HOT TOPICS”

Each year, as more and more laws are passed, it becomes increasingly difficult to keep up with all the changes. This session provides busy compliance professionals with a way to keep abreast of new compliance laws and regulations, regulatory proposals, and up-to-date changes. Discussions are encouraged among participants to facilitate all viewpoints and interpretations. This session will cover topics such as:

- Reg Z Changes
- RESPA changes
- Changes in real estate appraisal requirements
- Unlawful internet gambling enforcement act
- Reg DD changes concerning overdrafts
- Other topical issues such as the status of proposed Regs or any late breaking regulatory developments

BSA/AML

This session will cover some of the revisions to the updated BSA Examination Manual released by the agencies, as well as recent FinCEN rulings, agency monetary penalties for BSA non-compliance, and emerging trends.

CRA/FAIR LENDING

Discrimination can occur in any type of lending, and Regulators have an expectation that bank management should be assessing the level of fair lending risk in their institutions. Now that you are faced with the prospect of developing and performing a Fair Lending Risk Assessment, you have the challenge of determining exactly what should be included and what to do if fair lending risks are identified. This session will also cover recent fair lending cases decided in 2009 and 2010. We'll review the circumstances and required remediation and penalties assessed for each.
