2021 SESSION MODULES

Risk Identification and Assessment

This module will discuss the essential ongoing processes necessary to effectively identify and assess risks within the institution. The presentation will use examples to apply these concepts to analyze funding, strategic, compliance, and Fair Lending risks. Additionally, the module will discuss how the Board's risk appetite can influence the risk identification and assessment processes.

Are We Effectively Identifying and Monitoring Cybersecurity Risks?

This module will discuss cybersecurity risks, and the processes and strategies that can be implemented to effectively identify, mitigate, and monitor the risks. The presentation will also provide participants with key questions that Board members should ask to develop a better understanding of their institution-specific cybersecurity risk.

Conversation with the Regulators

This session will provide an informal setting for participants to hear what is on regulators' minds and to share experience and insights as a community bank board member. Members of the FDIC regional management team will highlight emerging issues, answer participant questions, and discuss topics raised by participants. The session structure will include prepared remarks as well as an open forum for questions and discussion.

Economic Updates

This session will provide national and local economic data to assist attendees in identifying key trends that have impacted and may continue to impact the industry.
